

The Hyatt Centric, The Liberties, Dublin is a member of the **Green Hospitality Program since 2021**. We currently hold a silver accreditation and are working towards achieving the Gold Level Award Accreditation.

The Green Hospitality Program has been developed as a resource for the Irish Hospitality Travel and Tourism industries to promote sustainable and responsible tourism. The Green Hospitality Awards are an internationally recognized third party environmental & sustainability certification awards program which requires businesses to follow a set of defined criteria aligned with the UN Sustainable Development Goals, Global Sustainable Tourism Council Criteria and the EU Eco-Label. For more information, please visit [www.greenhospitality.ie](http://www.greenhospitality.ie).

We are committed to an environmental charter to ensure viable, long-term economic operations, providing socio-economic benefits to all stakeholders, including stable employment and income-earning opportunities.

Our focus is to make optimal use of environmental resources and minimize consumption of energy and water and production of waste, whilst respecting local natural heritage and biodiversity.

Hyatt Centric, The Liberties Dublin is committed to continue implementing the following steps:

- Reduce, reuse, and recycle the resources consumed by our business wherever practical
- Minimize our waste and reduce our water and energy consumption where possible
- Monitor and record our environmental impacts on a regular basis and compare our performance against our policies, objectives and target
- Increase awareness with regards to protecting the environment and to support our staff, customers and suppliers
- Produce an annual Environmental Plan setting out our objectives, targets and planned actions
- Comply fully with all relevant legislation
- Provide all employees with the training and resources required to meet these green objectives
- Communicate our policies and practices to interested parties
- Achieve sound environmental practices across our entire operation

The following are actions that have been taken by us to minimize our impact on the environment:

### **Saving Energy:**

Our electricity is 100% renewable & throughout the property we only use LED Lighting.  
We are using energy saving lighting sensors in all our accommodation floors and back of house areas.  
LED External lighting linked with astronomical meters, so lights turn on and off automatically when possible.  
State of the art BMS and HVAC systems to manage the energy demand efficiently throughout the property public spaces and back of house areas while maintain constant fresh air flow throughout all areas of the property.

### **Water Consumption:**

Measured leak detection & measurement systems in place to avoid water loss throughout our property. We have carefully measured water conservation devices fitted in all guestrooms. In supply and dispense areas there are carefully measured pressure valves and optimal water flow showers and shower heads.  
Water saving devices fitted to Public Areas, Back of House Areas and Accommodations.  
In room guest water is served in 88% plant-based package which is fully recyclable with shared water dispense stations on our floors, gym and back of house areas.  
We have measured dispense push taps; sensor fitted flushers & dual option flush control in the public areas back of house.

### **Reduce Waste:**

All our waste is segregated, managed and weighed in conjunction with our in-house green team & partners Key Waste. We have removed plastic bottles and glasses from all our bedrooms and replaced with crockery & glassware.  
All in room cosmetics are provided in dispensers to avoid single use plastics and we are members of Clean the World Organization, contributing in collection / sanitation and redistribution of soap.  
Our takeaway coffee cups when used for takeaway purposes are fully recyclable.  
Our kitchen monitors food waste, shelf-life & portion control to minimize waste and food expiration.  
All our food is fully served plated options instead of self-serve options to avoid the waste of food.  
All our departments have adopted a paperless mentality.  
Our Front Desk and Reservations team have moved where possible to digital confirmation letters & guests billing and correspondence.  
We have digital guest room keys available to all guests via World of Hyatt mobile app.  
Online check-in and check-out via World of Hyatt App and digital receipts and guests' registration card.  
Digital in room guest services, dining menus and booking systems, hotel and city information's & discounts;  
To see all these services please visit: [www.planmyhyattstay.com](http://www.planmyhyattstay.com)

### **Purchasing:**

We are committed to reducing packaging waste and to collaborate with our suppliers  
Our first choice is always to buy locally thereby reducing food miles wherever possible without compromising quality using Irish meats, poultry, and fish in order to reduce the distance that food must travel to get from farm to fork.  
Our "Season's "menu is based around and changes regularly to use locally produced and in season fresh ingredients.  
All our coffee is fully ethical and fair-trade from sustainable sources and is handled by a local Dublin based supplier

**Being Green is Fun! You can play your part with us!**

Please close the windows if the heat is on in your room, you can regulate your heating in the room from your controller. We ask you to switch off all heating and cooling if the room is not occupied.

Please contact reception if assistance is required, we have systems that can remotely support this function for you.

Please try not to run water unnecessarily and inform a member of staff if you notice any leaks.

Please turn off all lights and electrical equipment when leaving your room.

Please segregate your waste and avoid using single use plastics if that option is available to you.

Please consider opting for "Keen to Be Green with Hyatt" housekeeping servicing, to contribute towards energy, water and chemical use reduction.

We are so close to everything, the best option is always to enjoy the walk and really appreciate everything our location has to offer. Alternatively choose public transport to reduce your carbon footprint

We welcome any questions or suggestions. Please do not hesitate to contact us at Reception.
